CONTENTS OF VOLUME 43

Abbott, I. A. See Hollenberg, G. J., 1177.
Andreev, L. N. and **Shaw, M.** A note on the effect of rust infection on peroxidase isozymes in flax, 1479.
Andrews, H. N., Phillips, T. L., and **Radforth, N. W.** Paleobotanical studies in Arctic Canada. I. *Archaeopteris* from Ellesmere Island, 545.
Argus, G. W. An endemic subspecies of *Salix reticulata* L. from the Queen Charlotte Islands, British Columbia, 1021.
Atkinson, R. G. *Phytophthora* species inciting root rot of *Chamaecyparis lawsoniana* and other ornamentals in coastal British Columbia, 1471.
Aubé, C. and **Sackston, W. E.** Distribution and prevalence of *Verticillium* species producing substances with gibberellin-like biological properties, 1335.
Bandoni, R. J. Secondary control of conjugation in *Tremella mesenterica*, 627.
Bannan, M. W. The rate of elongation of fusiform initials in the cambium of Pinaceae, 429.
Ray contacts and rate of anticlinal division in fusiform cambial cells of some Pinaceae, 487.
The length, tangential diameter, and length/width ratio of conifer tracheids, 967.
Beamish, K. I. and **Lin, S. C.** Fertilization and seed development in *Saxifraga integrifolia* Hook., 861.
Benedict, W. G. Plasmodial activity in *Stemonitis fusca* Roth, 355.
Ben-Shaul, Y., Epstein, H. T., and **Schiff, J. A.** Studies of chloroplast development in *Euglena*. 10. The return of the chloroplast to the proplastid condition during dark adaptation, 129.
Berliner, M. D. and **Duff, R. H.** Ultrastructure of *Armillaria mellea* hyphae, 171.
Berlyn, G. P. See Greenwood, M. S., 173.
Berlyn, G. P. and **Passof, P. C.** Cytoplasmic fibrils in proembryo formation in *Pinus*, 175.
Bhattacharya, P. K. See Shaw, M., 739.
Bier, J. E. Some inoculum factors in pathogenicity studies of *Hypoxylon pruinatum* (Klotzsche) Cke. on *Populus tremuloides* Michx., 877.
Bird, C. D. See de Vries, B., 947.
Bisalputra, T. The origin of the pectic layer of the cell wall of *Scenedesmus quadricauda*, 1549.
Boll, W. G. The growth curve and growth correlations of excised tomato roots grown in sterile culture, 287.
On the claimed 'adaptive' nature of IAA-oxidase and an effect of green light on IAA-oxidase activity, 885.
Bonga, J. M. *Arceuthobium pusillum* Peck: collection of seeds and in vitro culture of the early seedling stage, 1307.
Bonner, W. D., Jr. See Parsons, D. F., 647.
Boraiah, G. Phylogenetic studies of *Anemone stylosa*, 361.
Borthwick, H. A. See Cumming, B. G., 825.
Bowden, W. M. Cytotaxonomy of the species and interspecific hybrids of the genus *Agropyron* in Canada and neighboring areas, 1421.
Brach, E. J. and **Mason, W. J.** Astable multivibrator for measuring impedance of plant leaves and stems, 995.
Brandham, P. E. Polyploidy in desmids, 405.
Brandham, P. E. and **Godward, M. B. E.** Meiosis in *Cosmarium botrytis*, 1379.
Brewer, D. See Eveleigh, D. E., 519.
Bromfield, K. R. See Stefanye, D., 695.
Burley, J. W. A. See Webb, K. L., 281.
Butler, L. Some effects on fruit size of chromosome 2 of the tomato, 137.
Cain, Brother J. Nitrogen utilization in 38 freshwater chlamydomonad algae, 1367.
Calder, J. A. and **Taylor, R. L.** New taxa and nomenclatural changes with respect to the flora of the Queen Charlotte Islands, British Columbia, 1387.
Campbell, R. N. Weeds as reservoir hosts of the lettuce big-vein virus, 1141.
Canvin, D. T. The biosynthesis of long-chain fatty acids in the developing castor bean, 49.
The effect of temperature on the oil content and fatty acid composition of the oils from several oil seed crops, 63.
Incorporation of acetate-1-C^{14} into the long-chain fatty acids of some oil seed crops, 71.
Cayford, J. H. and **Waldron, R. M.** Multiple jack pine seedlings, 481.
Chamberlain, G. C. See Willison, R. S., 901.
Chandra, V. See Udar, R., 147.
Chiykowski, L. N. The reaction of barley varieties to aster yellows virus, 373.
A yellows-type virus of alsike clover in Alberta, 527.

Clausen, J. J. and **Kozlowski, T. T.** Use of the relative turgidity technique for measurement of water stresses in gymnosperm leaves, 305.
Colotelo, N. See Netolitzky, H., 615.
Colvin, J. R. The absence of elastic deformation in dried bent cellulose microfibrils in plant cell walls, 339.
The morphology of synthetic polymer films as a guide for interpreting microfibrillar orientation in plant cell walls, 1478.
Cook, F. S. and **Walden, D. B.** The male gametophyte of *Zea mays* L. II. In vitro germination, 779.
Cormack, R. G. H. The effects of calcium ions and pH on the development of callus tissue on stem cuttings of balsam poplar, 75.
Craigie, J. S. See McLachlan, J., 1449.
Craigie, J. S., McLachlan, J., and **Towers, G. H. N.** A note on the fission of an aromatic ring by algae, 1589.
Cronshaw, J. The organization of cytoplasmic components during the phase of cell wall thickening in differentiating cambial derivatives of *Acer rubrum*, 1401.
Cumming, B. G., Hendricks, S. B., and **Borthwick, H. A.** Rhythmic flowering responses and phytochrome changes in a selection of *Chenopodium rubrum*, 825.
Dale, H. M. Influence of soil on weed vegetation on a drained river millpond. II, 557.
Dale, H. M., Harrison, P. J., and **Thomson, G. W.** Weeds as indicators of physical site characteristics in abandoned pastures, 1319.
Darker, G. D. The occurrence of *Rhizothyrium* on *Abies* and *Tsuga*, 11.
de Ronde, J. H. See Willison, R. S., 901.
de Vries, B. and **Bird, C. D.** Bryophyte subfossils of a late-glacial deposit from the Missouri Coteau, Saskatchewan, 947.
Dix, R. L. and **Skrentny, R. F., Jr.** Reproduction of *Fagus grandifolia* Ehrh. by seed in Wisconsin, 757.
Duff, R. H. See Berliner, M. D., 171.
Ebell, L. F. See Eis, S., 1553.
Eis, S., Garman, E. H., and **Ebell, L. F.** Relation between cone production and diameter increment of Douglas fir (*Pseudotsuga menziesii* (Mirb.) Franco), grand fir (*Abies grandis* (Dougl.) Lindl.), and western white pine (*Pinus monticola* Dougl.), 1553.
Elliott, M. E. Some factors in apothecium production of *Ciboria acerina* in darkness and light, 641.
Epstein, H. T. See Ben-Shaul, Y., 129.
Etheridge, D. E. See Hubbes, M., 181.
Eveleigh, D. E. and **Brewer, D.** Interrelationships between microorganisms in an accumulation of slime in a paper mill, 519.
Falk, M. See McLachlan, J., 707.
Farrar, J. L. See Fayle, D. C. F., 1004; Glerum, C., 1590.
Fayle, D. C. F. and **Farrar, J. L.** A note on the polar transport of exogenous auxin in woody root cuttings, 1004.
Fensom, D. S., Meylan, S., and **Pilet, P-E.** Induced electro-osmosis in root tissues, 453.
Fergus, C. L. See Schmidt, R. A., 731, 1591.
Fisher, J. E. Morphologically distinct stages in the growth and development of rhizomes of *Poa pratensis* L. and their correlation with specific geotropic responses, 1163.
See also Friend, D. J. C., 15.
Foote, M. See Racusen, D., 817.
Forsyth, F. R. and **Hall, I. V.** Effect of leaf maturity, temperature, carbon dioxide concentration, and light intensity on rate of photosynthesis in clonal lines of the lowbush blueberry, *Vaccinium angustifolium* Ait. under laboratory conditions, 893.
Frankton, C. See Moore, R. J., 597.
Friend, D. J. C. Interaction of red and far-red radiations with the vernalization process in winter rye, 161.
Ear length and spikelet number of wheat grown at different temperatures and light intensities, 345.
Tillering and leaf production in wheat as affected by temperature and light intensity, 1063.
Friend, D. J. C., Helson, V. A., and **Fisher, J. E.** Changes in the leaf area ratio during growth of Marquis wheat, as affected by temperature and light intensity, 15.
Fu, M. See Parker, B. C., 1293.
Funk, A. A new parasite of spruce from British Columbia, 45.
A new inoculation technique for use with canker-producing fungi, 616.
The symbiotic fungi of certain ambrosia beetles in British Columbia, 929.
Garman, E. H. See Eis, S., 1553.

Georgopoulos, S. G. and **Vomvoyanni, V. E.** Differential sensitivity of diphenyl-sensitive and diphenyl-tolerant strains of fungi to chlorinated nitrobenzenes and to some diphenyl derivatives, 765.
Gill, C. C. Fluorescent metabolites in virus- or rust-infected bean leaves, 201.
Glerum, C. and **Farrar, J. L.** A note on internal frost damage in white spruce needles, 1590.
Godward, M. B. E. See Brandham, P. E., 1379.
Good, N. E. Interpretations of the carbon dioxide dependence of the Hill reaction, 119.
Gordon, W. L. Pathogenic strains of *Fusarium oxysporum*, 1309.
Gorham, P. R. See Webb, J. A., 97, 1009.
Greenwood, M. S. and **Berlyn, G. P.** Regeneration of active root meristems in vitro by hypocotyl sections from dormant *Pinus lambertiana* embryos, 173.
Groves, J. W. The genus *Godronia*, 1195.
Hall, I. V. See Forsyth, F. R., 893.
Halstead, E. H. and **Rennie, D. A.** The movement of injected P^{32} throughout the wheat plant, 1359.
Hamlin, S. A. See Ross, R. G., 959.
Hare, R. C. Simple hot stage for studying critical cell temperatures, 777.
Harrison, P. J. See Dale, H. M., 1319.
Heftmann, E. See Pharis, R. P., 923.
Helson, V. A. See Friend, D. J. C., 15.
Hendricks, S. B. See Cumming, B. G., 825.
Hiratsuka, Y. The identification of *Uraecium holwayi* on hemlock as the aecial state of *Pucciniastrum vaccinii* in western North America, 475.
Hodgson, H. J. See Mitchell, W. W., 855.
Hodgson, H. J. and **Mitchell, W. W.** A new *Elymordeum* hybrid from Alaska, 1355.
Hollenberg, G. J. and **Abbott, I. A.** New species and new combinations of marine algae from the region of Monterey, California, 1177.
Hubbes, M. See Jung, J., 469.
Hubbes, M. and **Etheridge, D. E.** A chemical basis for selection of heartwood fungi in balsam fir, 181.
Jung, J. and **Hubbes, M.** Growth inhibition of *Bacillus cereus* in vitro by glycosidal substances extracted from bark of *Fraxinus*, 469.
Kendrick, W. B. and **Molnar, A. C** A new *Ceratocystis* and its *Verticicladiella* imperfect state associated with the bark beetle *Dryocoetes confusus* on *Abies lasiocarpa*, 39.
Khanna, P. A contribution to the embryology of *Cyperus rotundus* L., *Scirpus mucrinatus* L., and *Kyllinga melanospora* Nees., 1539.
Khare, P. On the morphology and anatomy of two species of *Lepisorus* (J. Smith) Ching: *L. thunbergianus* (Kaulf) Ching, and *L. excavatus* (Bory) Ching, 1583.
Kohlmeyer, J. J. See Meyers, S. P., 915.
Kozlowski, T. T. See Clausen, J. J., 305.
Krotkov, G. See Toohey, J. I., 1043, 1055, 1151.
Kuijt, J. The anatomy of haustoria and related organs of *Gaiadendron* (Loranthaceae), 687.
Kumar, H. D. Effects of certain toxic chemicals and mutagens on the growth of the blue-green alga *Anacystis nidulans*, 1523.
